

Horace Allen is celebrating National Sweater Day on Thursday, February 6!

Eco Club is asking students to Please wear a warm favorite sweater and asking teachers to turn down their Class thermostats for the day!

Since 2010, more than a million Canadians have shown their support for limiting global temperature rise to **1.5 degrees Celsius** by turning down thermostats by the same amount (or more) and **wearing their favourite sweaters** to stay warm.

National Sweater Day is an opportunity to raise awareness about climate change and energy conservation, and show how together – classroom by classroom, school by school – we can be a part of the solution. We can make an impact on National Sweater Day by asking students to reflect on their personal carbon footprint and make personal commitments in their own lives to help keep climate change in check. Collectively, we can have a powerful impact.
